#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 14 November 2006.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed 11/14/06 have been fully considered but they are not persuasive.

Page 6:

The applicant argues that Wood does not disclose an apparatus comprising "feedback means for feeding back said degree of exposure of the content and statistical data calculated from contents of the customer database." Specifically the applicant refers to a section from Wood (paragraph 53, lines 4-6), providing a definition of the "fuzzy logic" used by Wood. The section cited by the applicant is not the definition, but merely an example of the functionality of Wood. The following sentence starts with "In addition, the "fuzzy" match..." disclosing another example of the fuzzy logic. In that example the system will use the fuzzy logic to automatically record movies with "Tim Allen" if you consistently record a program starring "Tim Allen." The examiner interprets this as being equivalent to the limitation, and the rejection stands.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States

Art Unit: 2623

only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-3 are rejected under 35 U.S.C. 102(e) as being anticipated by Wood.

Referring to claim 1, Wood discloses a content-exhibition control apparatus for exhibiting content in another apparatus (figs. 8 and 9; [0049]; [0050]),

comprising: generating means for generating degree-of-exposure control data used to control the degree of exposure of the content; exhibition control means for controlling the exhibition of the content recorded in the another apparatus according to the degree- of-exposure control data generated by the generating means; (by clicking a name in the channel guide, a dot is placed on the screen and the program is recorded, thereby controlling the 'degree-of-exposure' [0049]; fig. 8; by specifying all shows in a series to be recorded, a double dot is displayed and also controls the 'degree-of-exposure'; fig. 9; [0050]);

obtaining means for obtaining the state data of the content sent from the another apparatus (the "state data" is reflective of whether a single program or all shows in a series are recorded; figs. 8 and 9; [0049]; [0050]),

wherein the generating means generates the degree-of exposure control data according to the state data of the content, obtained by the obtaining means (the 'degree-of- exposure' is dependent on the number of dots displayed, which is displayed according the 'state data' or whether the show or series is to be recorded figs. 8 and 9; [0049]; [0050]);

storing means (104) for storing user information which includes user preferences with the state data (a user criteria indicates whether a single program or all shows in a

series are recorded, wherein the user criteria of preferences is stored) the content collected from a hard-disk recorder in a customer database (fig. 4, el. 403; [0042-0044]; [0049- 0050]); and

feedback means for feeding back said degree of exposure of the content and statistical data calculated from contents of the customer database (paragraph 53, lines 6-14).

Claim 3 is rejected on the same grounds as claim 1.

Referring to claim 2, Wood discloses the degree-of-exposure control data includes a content ID (name of the program; figs. 8 and 9; [0049]; [0050]),  
an exposure type (recorded or not recorded figs. 8 and 9; [0049]; [0050]),  
and an exposure value (single or double dot figs. 8 and 9; [0049]; [0050]);  
and the state data of the content includes a viewing condition and a degree-of-exposure condition (the 'viewing condition' is whether the program will be recorded and available for future viewing', the display of dots figs. 8 and 9 is the 'degree-of-exposure' of the 'state data,' or whether or not the program will be/has been recorded'; [0049]; [0050]).

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Justin E. Shepard whose telephone number is (571) 272-5967. The examiner can normally be reached on 7:30-5 M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chris Grant can be reached on (571) 272-7294. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
